

SYSTEM-1™

For over 20 years, System-1 has offered an integrated single source for all your mechanical and electrical power transmission needs featuring Baldor•Reliance and Baldor•Dodge products. System-1 can optimize your equipment performance and reliability, reduce overall costs, assist in coordinating multi-product projects, and ultimately improve your company's profitability.

The System-1 team includes engineering and product marketing specialists, in addition to Baldor's full complement of resources for product engineering and selection programs. The System-1 team also work directly with Baldor's Industry Solutions team to provide industry specific solutions.

To estimate the total cost of a project, companies must consider the time they spends in designing, selecting, and sourcing all the Power Transmission components of a drive system. System-1 can reduce costs by eliminating the need to order from multiple vendors, ordering mismatched components, coordinating multiple shipments from various vendors, and paying multiple invoices. Contact System-1 for your next package opportunity and find out why we are the industry's proven single source provider for innovative drive system solutions.

What is System-1?

System-1 is a product marketing group that facilitates the design, quotation, and order processing of multiple power transmission, electrical products and services into a complete package solution.

Who can I contact about System-1?

System-1 phone number:

864-284-5767

Fax:

864-281-2355

Email

pssystem1@baldor.abb.com

When do I use System-1?

A System-1 request for quote typically consists of multiple products that are combined to make up a complete assembly.

Examples are:

- Dodge Torque Arm gear reducer, v-belt drive, Baldor Reliance motors, pulleys, shafts, and bearings
- Creep Drive / Turning gear sets
- Dodge Magnagear packages for large HP applications (up to 5,000HP)
- Dodge Quantis reducers, Baldor Reliance motors, Dodge couplings, and Variable Frequency Drives

System-1 can also incorporate non-Baldor products such as external backstops and over running clutches.

Why should I use System-1?

- Saves you up front engineering and quoting time
- Single point of contact from the initial quote phase up through receipt of your product
- Pre-assembled packages
- Single point of contact should any issues arise

All these add up to a lower total cost of ownership to you and your customer!
