

## Flexible mulch blowing hose reduces worker fatigue

Flexaust offers an all-plastic hose for bark mulch blowing that is flexible, lighter and more durable than conventional heavy-walled PVC hose. Flex-Tube® PU is offered in long lengths up to 100 ft. and can be supplied with optional swivel connectors to prevent twisting.

### Flex-Tube® PU

Medium weight co-extruded thermoplastic ether based polyurethane hose with a rigid external ABS helix

Sizes .....4", 5", 6"  
Length (Ft) .....50', 100'  
Temperature Range (°F) .....-40° to 200°

- Ultra smooth interior assures efficient airflow
- Great abrasion and crush resistance
- Excellent wear performance
- Puncture & tear resistant, high tensile strength
- Good low temperature flexibility
- Helix acts as a wearstrip
- Excellent hydrolysis & microbial resistance
- OEM lengths & colors available

### Flex-Tube® Swivel Connector

- Flex-Tube swivel connectors make it easier to maneuver longer (connected) lengths of hose
- Available in sizes 4", 6"
- Made with high strength polyurethane to withstand application abuse
- Provides the user freedom to move around without tangling or kinking the hose
- Increases job productivity and efficiency
- Less hose flex fatigue
- Secure with Flex-Tube bridge clamps

### Flex-Tube® Bridge Clamps

- Specially designed stainless steel band and welded stainless steel bridge with stainless steel screw
- Fits over helix creating a leak proof seal
- Available in sizes 4" to 12"
